1. Pemex, Mexico's Government-Owned Petroleum Company has an ambitious offshore pipelines project in which 59 international tenders will be published during the next twelve months.

2. The program is to build 400 kilometers of offshore pipelines ranging from 8 to 36 inches of diameter to link the most important oil production areas of Mexico. The project has an estimated value of USD 2 billion.

3. The production regions to be linked are: Cantarell, Sihil, Akal-Q and Akal-W, Ku-Maloob-Zaap, Ligero Marino, Ixtal-Manik, Ayin-Alux, Yaxche, Carpa and Lobina. All regions are located in the South Coast of the Gulf of Mexico (States of Tabasco and Campeche).

4. All the tenders will be available in the web-page
www.compranet.gob.mx

5. Companies interested in participating in the above project please contact:
